Statement from Secretary of State Trey Grayson  
on Election Security Seal Program

“Protecting the integrity of Kentucky’s elections is the highest priority for the Office of the Secretary of State and for the hundreds of local elections officials throughout the Commonwealth.

In the last few elections, political websites and online fundraising have proliferated, and so have concerns about fraudulent activity connected to such sites. Election administrators must protect citizens from fraudulent political websites, or we may run the risk of alienating potential voters. A cutting-edge solution to this problem is an on-line security seal program similar to those used for commercial websites.

I am delighted to work with ElectionMall™ Technologies, Inc. as we launch the ‘Election Security Seal’ program in Kentucky. The Commonwealth’s citizens deserve to have confidence that a Kentucky candidate’s site is authentic. With this program, when Kentuckians see the trusted seal of the Secretary of State on a candidate’s webpage, they will have that confidence.

This program represents the latest, cutting-edge initiative to build a stronger election system for Kentucky. Our Commonwealth is recognized as a national leader in election administration. I am proud to continue that tradition today.”
